

Fixed Income Investor Presentation

We look to the future by changing the present

Who we are

Who we are

We are 100% owned by the Italian Ministry of Economy and Finance (MEF), with a solid capital structure

We are a full credit management company and a partner for all our stakeholders in a competitive market

We are a fast growing company, completing the new set up and changed our name to AMCO

We manage €23.9bn NPE, of which ~€10bn of going concern assets

Our proven track record in NPE management

We receive Fitch Special Servicer Rating

We become one of the main players in the

We enter the global debt capital markets

1996 We start to manage the former Banco di Napoli's NPE portfolio

2017 (RSS2-, CSS2- e ABSS2-), confirming high-level performance in the recovery of residential and corporate loans

2018 Italian NPE market, thanks to the acquisition of ~€18bn of impaired loans from Veneto banks in compulsory liquidations (LCA)

with: (1) the first bond offering in February (€250m) and (2) the first benchmark issuance in October (€600m)

Dec: €1bn capital increase by sole shareholder MEF to finance growth

We changed our name to AMCO

"We look to the future by changing the present."

"We value our 20 year old track record."

"We innovate, investing in technology and human capital."

"We offer new opportunities to our counterparties."

to play a role in the Italian NPE market for all our stakeholders

to maximize the performance of portfolios under management

AMCO: key investment highlights

100% owned by the Italian Ministry of Economy and Finance (MEF)

Investment grade rated by S&P and Fitch

A fast growing and scalable company

Aiming to play a role in the solution of the NPE problem in Italy

Simple B/S structure and strong capital position

4

100% owned by the Italian MEF

We are a **Financial Intermediary ex art.106 TUB**: we recover, manage and invest in NPEs and lend to counterparties

We operate in the competitive Italian NPEs market

Our activity is regulated and supervised

Bank of Italy regulates and supervises Financial intermediaries ex art. 106 TUB

We are monitored by State auditors

Corte dei Conti attends AMCO's Board meetings

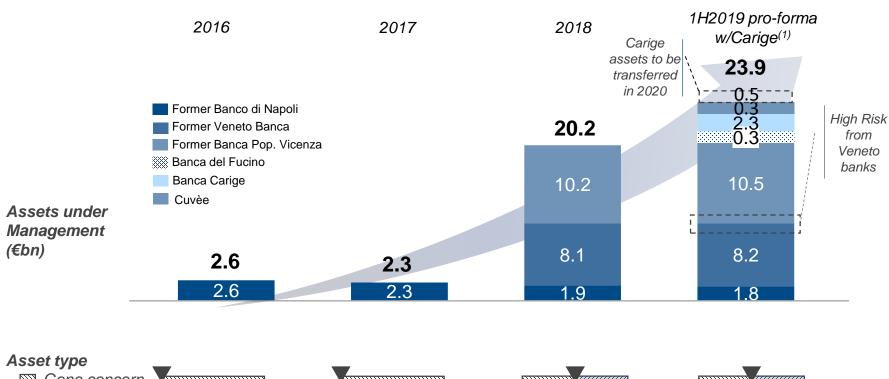

Investment grade rated by S&P and Fitch

Sep. 20th, 2019

First rating	July 23 rd , 2019	September 27 th , 2018
Rating agency	S&P Global Ratings	Fitch Ratings
Issuer Default Rating	Long-Term IDR: BBB Senior Unsecured Debt: BBB Outlook negative These ratings apply also to the October 2019 €600m issua	Long-Term IDR: BBB - Short-Term IDR: F3 Positive watch nce Since Dec. 12 th 2019 - following €1bn equity increase and involvement in Carige derisking
Overview	"The rating on AMCO primarily reflects our view that there is an almost certain likelihood that the Italian Government would provide AMCO with timely and sufficient extraordinary support if it were in financial distress. S&P therefore equalizes its long-term rating on AMCO with our long-term unsolicited sovereign credit rating on Italy" (S&P Ratings report, July 23rd 2019) S&P stated that "the capital increase at AMCO approved on 29 Nov., demonstrates the Italian Government's commitment to support AMCO's activities" (S&P Bulletin, December 2nd 2019)	"The rating reflects the link between AMCO and Italy's national Government and Fitch's expectations of the latter's willingness to provide any extraordinary support." (Fitch Ratings Report)

We are a fast-growing and scalable company ...

Employees (EoP)

#71

Note (1): Assets under Management: 1H2019 assets plus Banca del Fucino assets (deal closed on September 14th 2019), high risk from Veneto banks (received in May 14th 2019 and in October 13th 2019), Carige portfolio (€2.3bn transferred on December 20th, 2019, plus additional €0.5bn to be transferred in 2020), and Cuvèe assets excluding double counting (deal announced on December 27th, 2019)

3 ... with a full credit management service model ...

			1H2019 ^(*)
CREDIT	Management of going/gone concern assets Arranger, Master&SS in	Gone concern assets	31.9%
MANAGER	securitizations		
Fee based model	Active management of real estate guarantees (ReoCo)	Going concern assets	40.3%

INVESTOR

Interest based model + cash gains/losses on loans

Management of purchased assets

New lending to going concern worthy counterparties

27.8% + Carige to come

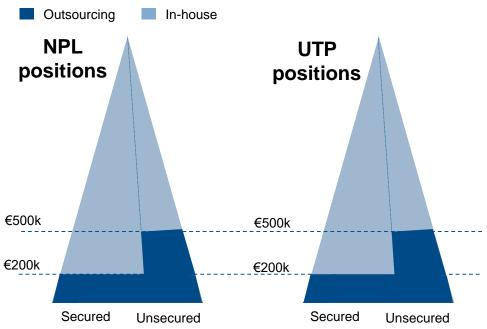

... with a flexible and scalable structure

Operating model based on **in-house management** mostly of larger, secured positions to ensure high expected recovery, PLUS **outsourcing** of smaller, "standardized" positions

In-house/outsourced management of positions

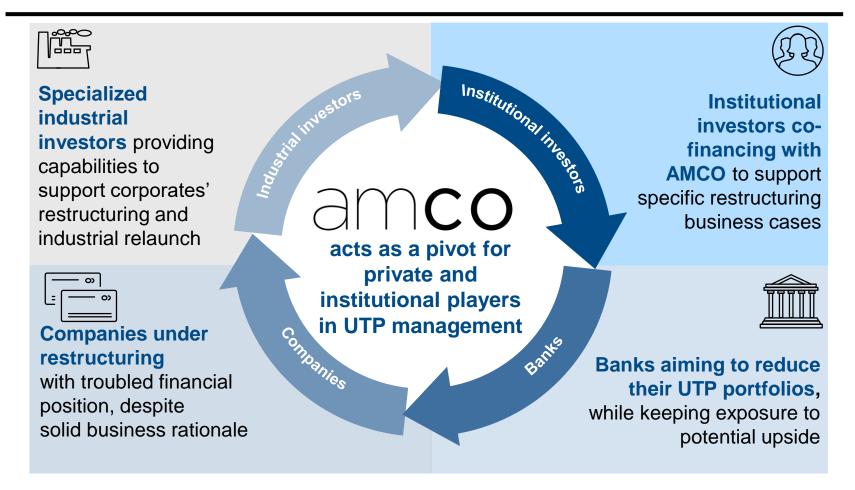

Successful outsourcing model based on:

- established relationship with ~10 outsourcers following rigorous selection process
- flexible contracts allowing for reinsourcing of activities after a set period of time
- established performance system of outsourcers with specific KPIs versus recovery plans

In-house PLUS outsourcing model allows for optimal balance of fixed/variable costs, ensuring scalability and flexibility

... acting as a facilitator for our stakeholders

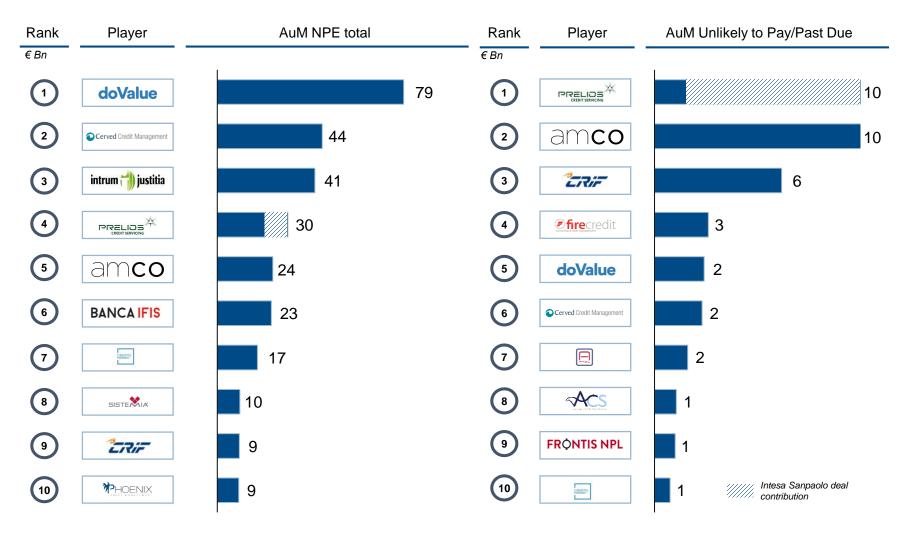

Cuvèe project closed in Dec. 2019: the first multi-originator fund managing real estate UTPs in Italy. AMCO acting as Master and Special Servicer; Prelios as fund manager and real estate partner. MPS, UBI, BancoBPM and AMCO contributed the loans

4

We aim to play a role in the Italian NPE market

Source: All data as published in PwC's report «The Italian NPL Market», December 2019, excluding AMCO (see page 7) and Prelios (proforma including AuM related to the deal with Intesa Sanpaolo closed on July 31st 2019).

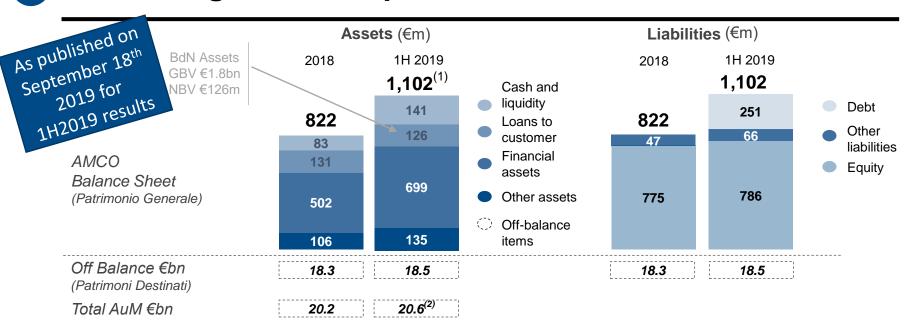

5 We manage a diversified range of assets

	Originator	Asset type	On/Off Balance Sheet	Impact on P&L	Capital impact
	Banco di Napoli	Loans (gone concern)	On B/S Loans to customers (NBV)	Net impairment gain/losses on credit risk	Yes
	Veneto banks	Loans + Notes (gone and going concern)	Off B/S Segregated accounts	Net fees (master & special servicer)	No
€23.9bn AuM	Banca del Fucino ⁽¹⁾	Junior & Mezzanine Notes (+ Servicing)	On B/S Financial assets	Net fees (master & special servicer) Interests and fees from customers Net result of financial activity	Yes y
	Banca Carige (2)	Loans (gone and going concern)	On B/S Loans to customers (NBV)	Interests from customers (PoCI) Net impairment gain/losses on credit risk	Yes
	Cuvèe ⁽³⁾	Fund quotas (+ Servicing)	On B/S + Off B/S Financial assets New financing	Net fees (master & special servicer) Interests from customers Net result of financial activity	Yes y
€0.5bn Financial nvestments	Italian Recovery Fund	Notes, Shares, Bonds	On B/S Financial assets	Net result of financial activity	Yes

5 W

We leverage on a simple balance sheet structure...

Our financial assets are mainly composed of Italian Recovery Fund (IRF) and Government bonds

We have €250m of new debt issued on February 13th, 2019

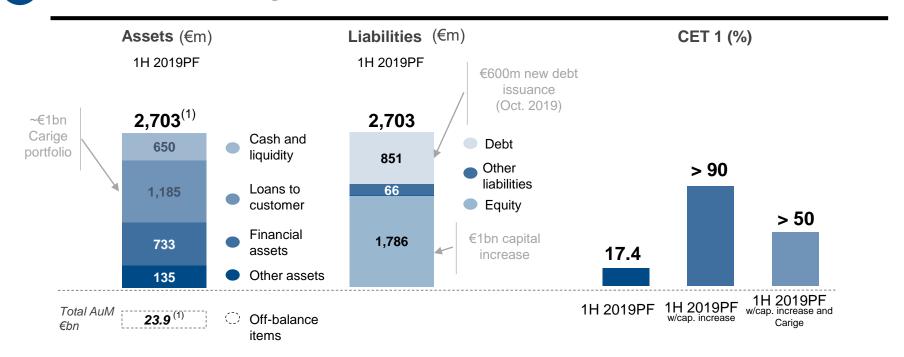

We can leverage on a strong capital structure with CET1 ratio of
 17.4% versus a regulatory requirement of 8.0%

We can support our growth increasing safely our leverage (current D/E ratio is ~ 0.30x)

... with a strengthened capital base

ProForma for approved capital increase, CET1 as of 30/6 would be > 90%, and > 50% after the completion of Carige transaction

AMCO's **D/E ratio** at ~0.30x on 30/6/2019, and **~0.5x proforma** for the new debt issued in October 2019 and the capital increase. We can support our growth increasing safely our leverage

High quality performance despite one-off costs to setup an innovative and scalable model

€m	FY2018	1H2019
Revenues	37.4	23.3
Costs	(28.5)	(20.1)
EBITDA	8.9	3.3
Net impairment gains/losses on credit risk	25.2	9.0
Net accruals to provisions for risks and charges	(16.9)	(5.5)
Others	0.8	(0.2)
Net result of financial activity	20.4	7.6
EBIT	38.4	14.1
Net interest from financial activity	0.6	(2.2)
Income taxes	8.5	(3.7)
NET PROFIT (LOSS)	47.5	8.2

Note: 1H2019 results includes the effects deriving from the first application of IFRS16. 2018 results do not include these effects as the restatement of the comparative data is not envisaged

Revenues are related to the servicing of former Veneto banks portfolios, including Master Servicing fees and Special Servicing fees relating to both non-performing loans and securitizations

Costs increase is due to the setting up of an innovative and scalable structure, with 211 employees versus 144 in 2018YE. The "transformation costs" represent two thirds of total costs Net impairment gains on credit risk related to former Banco di Napoli portfolio

Net result of financial activity mainly includes the capital gain on the valuation of the investment in the IRF fund (former "Fondo Atlante")

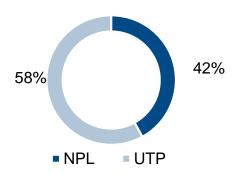

Purchase of €2.8bn NPE portfolio from Banca Carige

Deal closing: December 20th, 2019

Purchase details

- €1.0 billion purchase price

Portfolio breakdown

Additional offer for guarantee on high-risk portfolio

- AMCO offered to sell synthetic protection on a €1.2 billion high-risk performing portfolio against payment by Carige of quarterly premiums. AMCO can act as servicer to manage positions which might be reclassified as UTP
- The offer expires by end of February 2020 and includes the possibility of activating the guarantee (5-year tenor) by end of March 2020

A snapshot of the former Veneto banks deal

- MEF Decree 221/2018⁽¹⁾ has put in place two ring-fenced "Patrimoni Destinati" holding the assets acquired from the former Veneto Banca and Banca Popolare di Vicenza ("Veneto banks")
- AMCO acquired, without recourse (pro-soluto), €16.7bn NPE portfolio of Veneto banks, plus
 €1.6bn of "financed capital" under management

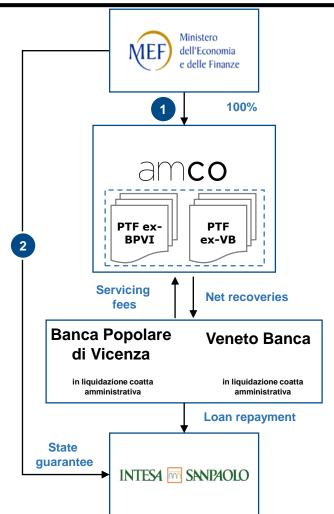

- The purchase price, initially corresponding to the net book value of the receivables, is regularly reviewed in accordance with the estimated net realisable value
- The purchase price is paid quarterly to the "compulsory liquidations"; the quarterly cash flow is equal to all collections realised from the NPE portfolios, net of AMCO'S fees, costs, expenses and new financing to UTP/PD borrowers

Former Veneto banks deal and the dual involvement of the Italian Republic

- 1 Shareholder
- The Italian Republic fully owns AMCO via MEF
- 2 Guarantor
- The Italian Republic has issued a State guarantee on a loan granted by ISP
- Such loan has been granted by ISP to the two compulsory liquidations (expiring in 2022) to fund the negative imbalance of €6.4bn originated in the context of the acquisition of the "Good Banks"
- Therefore, in the event that the two compulsory liquidations are not able to fully repay the loan, ISP may trigger the State guarantee

- The Italian Republic has a strong interest in ensuring AMCO's viability and performance
- A potential operational discontinuity could jeopardise the management of impaired receivables, increasing the likelihood that the State guarantee will be triggered

Note that, as part of the deal, ISP has the right to transfer pre-identified "high risk" loans by April 2021 to former Veneto Banks' "Patrimoni Destinati" managed by AMCO. MEF grants the transfer of "high risk" loans up to €4bn
